HAND & FOOT SURGERY

INSTRUMENTS

Introduction

GlobalTec Surgical is a highly experienced manufacturer of surgical instruments. With our wide range of products, we provide instruments for surgeries from head to toe.

We present our catalogue detailing our range of instruments specialising in orthopaedic surgery.

Our specialist instruments are manufactured to the highest possible standards using the most modern processes and technology. Based in Thrissur, the cultural capital of Kerala - "God's Own Country" - we leverage technological advancements to deliver world-class surgical solutions.

HFGT 5710-14

HAND RETRACTOR

Tuppers Hand Retractor Set
Complete Set with container

HFGT 100/110

Tuppers Universal Hand Holder and Retractor Set enables the surgeon to fixate the hand in any position needed. The patient's hand is held absolutely firm and allows unhindered work under the microscope. Ball chains of varying length with skin or tendon hooks fixate the hand and lower arm on the Hand Holder. Due to the slots around the Hand Holder, retraction in every direction is possible. Upward retraction is easily achieved with the elevated chain holders. The special container is designed for easy handling and safe storage.

Set consisting of the following instruments:

Qty	Order Code	Description
1	TH-101	Hand Table
2	TH-102	Elevated chain holders
2	TH-103	Chain holder hooks
2	TH-104	Ballchains 32cm,withskin-hooks
4	TH-105	Ballchains 21cm,withskin-hooks
2	TH-106	Ballchains 26cm,forarmandwristfixation
4	TH-107	Tendon hooks 5.0mmwide
4	TH-108	Sliding hooks fortherubberbands
1	TH-109	Set rubber bands 5 pieces

ACLAND MICRO VESSEL CLAMPS

- Light and compact design
- Extremely durable
- A unique gripping surface
- Smooth sliding bar action
- on all approximator clamps
- Clamp profile with parallel sided jaws
- Matt or black finish

"A" or "V" Pattern?

Throughout the series, the "V" pattern is the all-purpose clamp, commonly used on all veins, and almost all arteries. The "A" pattern, available in all sizes, is designed for exceptionally thick-walled vessels and slippery arteries. The slight incurve of the tips of the "A" pattern jaw provides extra security against slippage.

VISIBILITY BACKGROUND MATERIAL

TO ASSIST IN VISUALISING MICRO VESSELS DURING SURGERY

Application: For use in Micro Surgical Anastomosis of Micro Vessels under a Microscope to allow the surgeon to better visualize the detail of the vessels, being closed.

The Visibility Material can be used either with the Grid side up to give the Surgeon a scale of the vessel alternatively the reverse Plain side can also be used.

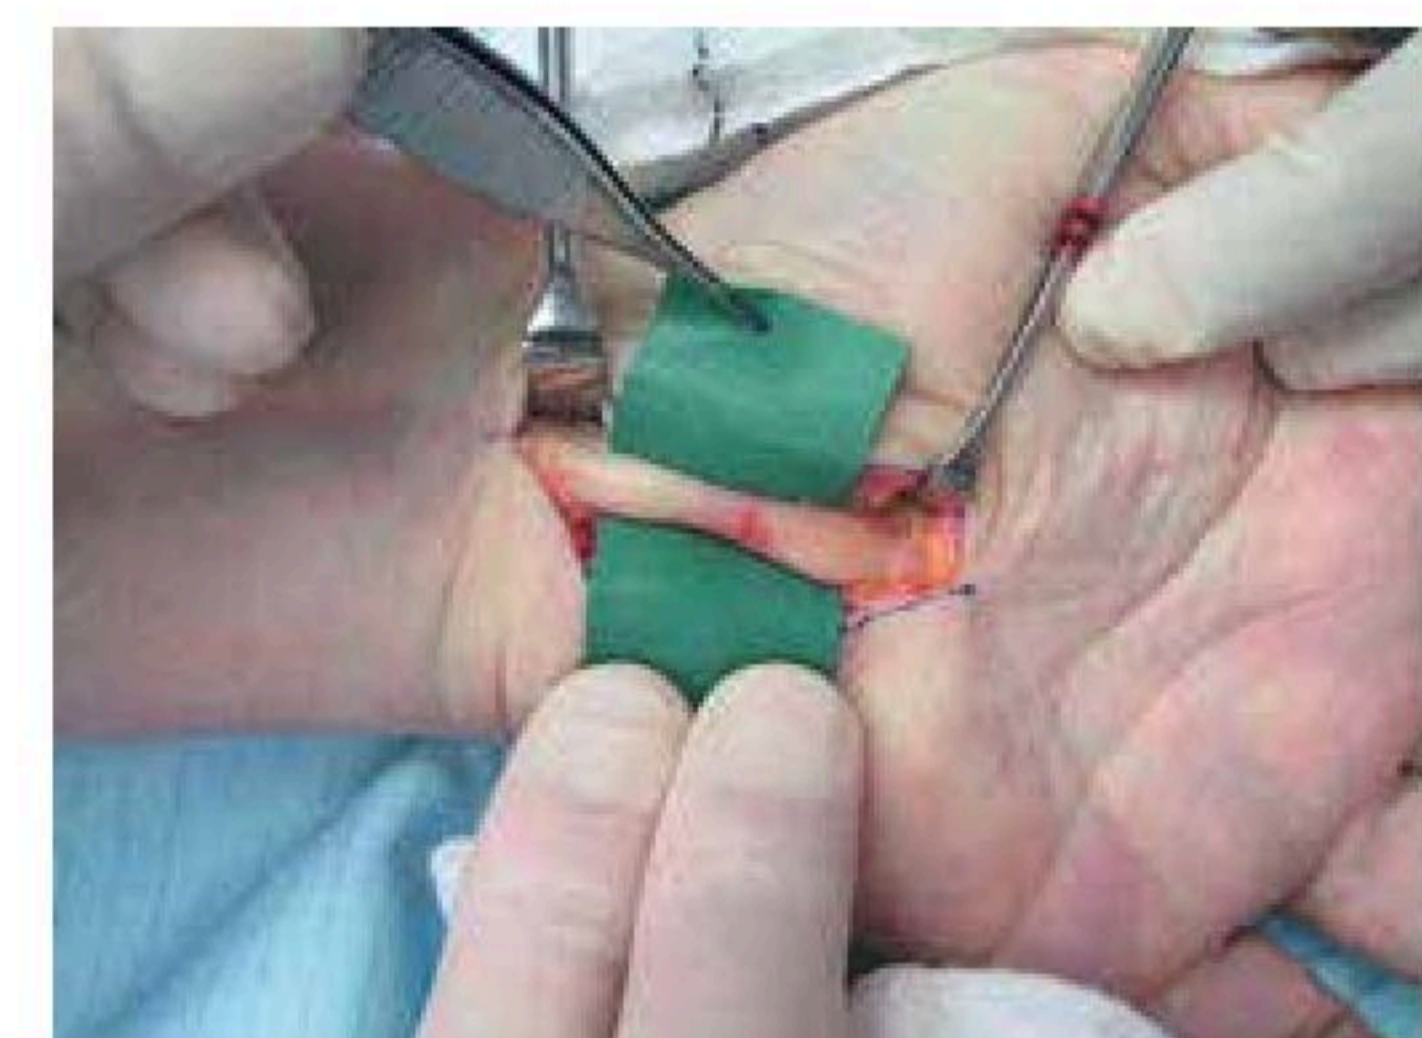

The material has a none reflective surface eliminating distractions from theatre lighting and has a non-tacky finish to aid mobilization of the Vessel.

1mm Grid one side & matt finish
on reverse. Size: 50mm x 25mm
